**Compatible only with Slam Brands' Universal Flat Panel Bracket #222709. Bracket is not included.**

# IMPORTANT INFORMATION

THIS INSTRUCTION BOOKLET CONTAINS **IMPORTANT** SAFETY INFORMATION.  
PLEASE READ AND KEEP FOR FUTURE REFERENCE.

## SAFETY FIRST

- ! When moving TV Stand, remove TV first.  
Do NOT move TV Stand with a TV on top.
- ! To avoid injury, assemble TV Stand in final location. Moving the stand after it is assembled is not recommended.
- ! Ensure that all parts and hardware are located before assembly.
- ! A drill and Phillips or Flat Head screwdriver may be necessary to complete assembly (not included).
- ! If you have purchased a Universal Flat Panel Bracket separately, assemble the Bracket to the TV Stand **BEFORE** securing glass shelves.

## ANTI-TIP HARDWARE

This product is sold with anti-tip hardware and it is suggested that the product be used with this hardware attached. Danger from tipping may result if the hardware is not attached to both the wall and the TV Stand. Slam Brands, Inc. is not responsible for any personal injury or damage to stand, television, components, or household effects resulting from improper use of this product.

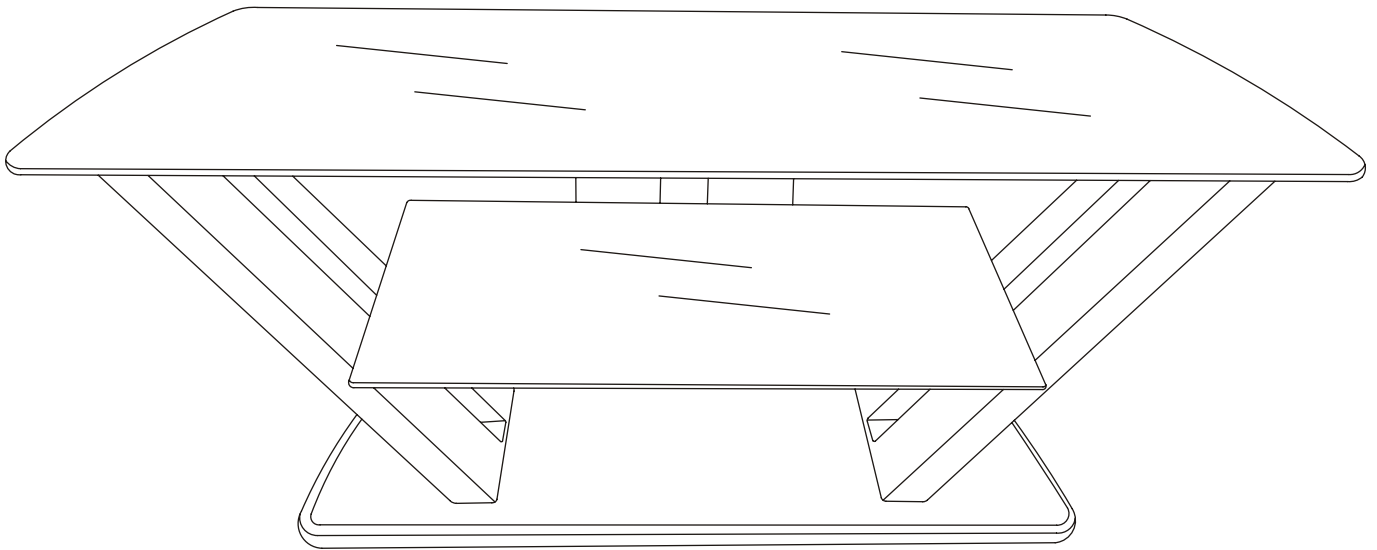

## UNIVERSAL FLAT PANEL BRACKET COMPATIBILITY

This Universal Flat Panel Bracket is intended for use only with Slam Brands' TV stands identified as compatible with product #222709. Use with TV stands other than those manufactured by Slam Brands, or those not labeled for use with product #222709, is unsafe and may result in instability causing possible injury. Slam Brands, Inc. is not responsible for any personal injury or damage to stand, television, components, or household effects resulting from improper use of this product.

# Cable Pro<sup>™</sup> Advanced Cable Control<sup>™</sup>

Cable Pro's Advanced Cable Control mounts directly to the back of your TV stand. Multiple cleats of different sizes and custom placement enable you to shorten, separate and route both single and bundled cables. Open, flexible design accommodates any cable diameter and when used in multiples, creates a system for routing cables through channels, between components and to power sources without the usual tangled mess or annoying signal interference.
